The **Unisto Emergency Exit Security Seal & Sash** is designed for use on double or single fire doors in **Public Areas**. The seal & sash requires a minimum level of effort to break in the case of an emergency, whilst at the same time offering tamper evident security against misuse of the emergency exit. The seal affords the user an audit trail of trial openings in case of an investigation or inquiry, should the doors fail to operate, protecting those responsible and mitigating risk of prosecution by demonstrating due diligence.

The security seal & sash has a low breaking strength of <6kg and the seal is uniquely sequentially numbered. The Hi Vis sash colour and red seal designed to draw attention to the emergency exit and deter misuse.

TO RE-ORDER SECURITY LABELS CALL **UNISTO LTD 01483 209100** OR E-MAIL sales@unisto.co.uk
